

Experimentelle Archäologie in Deutschland Bilanz 1998

Y.M.J. Lammers-Keijsers

(Bulletin VAAE jrg 5, nr 1 (2000), pg 27-28)

This book appeared in the series of Mamoun Fansa and contains sixteen German articles, mostly including English summaries. One article of special interest deals with experimental theory (P.Reynolds). Three articles report on experiments with artefacts found on the ice man Ötzi. Further some reports of experiments on producing and using ceramics, bronze, iron and clothes. Two articles are dealing with reconstructing wooden objects.
